

2011 VOS Sponsorship Opportunities

Sponsorship of the Annual Conference of the Veterinary Orthopedic Society represents a unique value for companies of any size. Where else can you find a large, international audience of veterinary orthopedic specialists and industry leaders in ONE conference room and one intimate exhibit space? You will have the focused attention of an audience that is comprised of the very ‘experts’ that general practicing veterinarians look to for advice (chances are very good that the orthopedic speaker you see on the program at those other international, national, state and local meetings is attending the VOS conference).

The VOS offers a wide variety of sponsorship levels and a distinctive menu of valuable benefits so that you can tailor your investment to your unique corporate needs and budget. In addition, this meeting naturally lends itself to friendly and personable hallway conversations. Looking to find the opportunity for highly personable interactions with industry influencers from around the world? Look no further.... we think you will agree that the Annual Conference of the VOS is a unique and valuable sponsorship investment.
