

Virtual VOS Continuing Education Credits

There are two components to the 2021 Virtual VOS Conference program: a Live Program and a non-live Expanded Program. The Live Program is available for live participation and interaction, but will also be recorded for subsequent On Demand viewing. The Expanded Program is supplemental content that is only available via On Demand viewing (it will not be available for live participation and interaction). The AAVSB sets different requirements for earning CE credits depending upon whether a person is a live, interactive participant or if they access recorded content.

In compliance with the AAVSB, the 2021 Virtual VOS Conference will offer two different options for earning RACE approved continuing education credits:

1. You can earn credits by participating live in the Live Program Sessions that will be held Thursday evening (3/18) through Saturday morning (3/20).
2. You can earn credits by viewing On Demand Content that will include recordings of the Live Program Sessions, as well as additional content from the non-live Expanded Program Sessions. There are particular RACE requirements for obtaining CE credits using this method that are detailed herein.

Virtual VOS will offer up to a total of 19.5 RACE approved continuing education credits (11 hours from the Live Program Sessions and 8.5 additional hours from the Expanded Program Sessions).

Questions about CE credits? Contact the NCSU Continuing Education Office at ceregistration@ncsu.edu.

Earning Credits from the Live Program Sessions

For those who only want to earn CE credits from your participation in the Live Program Sessions, nothing could be simpler. All you have to do is show up and participate in the "attendance polls" that will run during each Live Session.

Here's how it works - you'll be provided a login for the Virtual VOS app, which can be accessed either on a computer or on a mobile device. Once you are logged in there will be live streams for each of the four Live Program Sessions. Click on the appropriate stream and you're in! "Attendance polls" will be launched periodically so that we can track attendance. Simply click the "Yes, I'm here" answer on the poll that pops up and you've got your credit for that session.

CE credits for the Live Program Sessions are offered as followed:

- Thursday, March 18th - 1 CE credit
- Friday, March 19th AM Session - 3 CE credits
- Friday, March 19th PM Session - 4 CE credits
- Saturday, March 20th - 3 CE credits

TOTAL CREDITS AVAILABLE FOR LIVE PROGRAM SESSIONS = 11

Earning Credits from the On Demand Content

The On Demand content will be made up of recordings of the Live Program Sessions, as well as additional abstract presentations of the non-live Expanded Program Sessions. All On Demand content will be grouped into topic-based sessions each containing four presentations (see pages 4 and 5 for a list of specific topics).

Since some registrants will be unable to participate live in the Live Program Sessions, the On Demand Program will include recordings of content from the Live Sessions interspersed with content from the Expanded Program and organized by topic. If you wish to obtain CE credits from both your live attendance of the Live Program Sessions and from the recorded Expanded Program content, you will **not** be required to re-watch any Live Program content that you have already viewed; however you may have to answer quiz questions related to a session(s) you watched live. More details on how the On Demand content will work can be found on page 3.

Per RACE requirements specified by the AAVSB, to earn CE credit for a particular Topic Session from the On Demand content, you will need to:

- Watch the video presentations in that session
- Take a 5 question quiz based on that session's content
- Achieve a score of 80% or higher on the quiz

Though the On Demand content will be hosted *outside* of the Virtual VOS app, it will be linked *within* the Virtual VOS app. Login information for this On Demand portal will be sent via email to all Virtual VOS registrants.
